

DEAD UNDERGROUND

Dead Underground is a sci-fi survival game with RPG elements inspired by horror movies and the game Dead Space

The player plays as a member of the Biohazard team. An absolutely expendable and unimportant member of the group in the last remnants of humanity on Mars. After the destruction of the planet Earth, the last survivors moved to Mars and tried to build a colony. And while digging tunnels below the surface, they found something...

Difficulty

- **Easy:** chill playing
- **Normal:** 2x more monsters with 2x more health, 2x more damage + more ammo loot
- **Hard:** little bit more monsters and all monsters have 3x more health and 3x more damage + more ammo loot

Player equipment

1. Telekinesis gun - for handling anti-gravity batteries

2. Automatic rifle

3. Radiation detector
4. Cave Finder 2000 - for finding hidden caves
5. Health indicator
6. Translator - translates foreign and unknown languages

Status bars

1. Health
2. Hunger
3. Thirst
4. Stamina - for running
5. Oxygen

What negative influences can affect the player

1. Damage from monsters - use first aid kit
2. Thirst - use water, sodas, processed water mushrooms
3. Hunger - use canned goods and other food
4. Oxygen - when you run out of oxygen, refill at the oxygen station. If oxygen runs out as a result of the infected air in the environment, DNA damage will occur. Use DNA modulator. You can only use the DNA modulator after you have replenished the oxygen.
5. Radiation sickness - If radiation exposure occurs, use an anti-radiation serum.

Save terminal

Save terminals are only in certain and remote locations. If you find it, use it now ☺

Cave Finder 2000

This is an important thing. Check the status of the detector. Cave Finder 2000 searches for hidden caves that you can only explore using C4.

In these caves are the ancient technologies of the original inhabitants of Mars. And parts of the story too.

Fabricator

In this device, you turn the water mushrooms and moss you find into water and food.

Mushrooms and Moss have respawn.

Messages and codes important for the passage of the game

Always check every tablet and every computer. There are crew records and lock codes.

Tips

- Don't waste ammo ;)
- If you will follow the instructions in the game (tablets, notebooks)..., then it is possible that everything will go well :D
